

St. Pius X School Academic Enrichment Intervention Model

Model A

Student is diagnosed with a learning disability or shows a need for accommodations.

SAP is created for the child & shared with classroom teacher. Intervention begins during class period determined by AE or SAT.

Student begins to perform with an A/B average in class. Student performs at grade level on standardized tests.

Student is exited from the program & progress is monitored. SAP accommodations continue. Exiting is determined by AE & SAT.

Model B

Student is performing below grade level in class & on standardized testing, showing little growth. Teacher provides documentation.

Student joins Academic Enrichment for 6 to 9 weeks of intervention.

Student begins to perform with an A/B average in class. Student performs at grade level on standardized tests.

Student is exited from the program & progress is monitored. Exiting is determined by AE & SAT.

Model C

After at least 6 weeks of intervention, student is still not making progress.

Further educational / psychological testing is recommended.

Begin Model A.
